

Belt/Disk Sanders KRA 75 T

SKU : 170202

The belt grinder of the KRA series offers the possibility to prepare pipe ends precisely for pipe connections. An angle-adjustable clamping device for pipes can be easily moved using a hand lever. In addition, there is a large grinding surface and a contact surface on the drive roller for universal grinding work. A dust collection system can be connected via a nozzle. The belt grinders of this series are suitable for all workshops and production facilities that process tubes into racks or frames.

- For precise grinding of tube unions
- Contact roll for grinding of shaft ends
- Longitudinal grinding surface for deburring
- Suitable for stainless steel and aluminum
- Ready for vacuum exhaust connection
