

Tube End Finishing Machines EM 250 Tube and Profile Bending Machine

SKU : 102858

The EM pipe and profile deburring machines are the ideal addition to any cold circular saw, shear, notching or profile end processing machine. A sturdy wire brush can be used to remove chips and burrs that have not been completely loosened. The cutting edge itself remains unchanged. Ideal for every workshop with tube processing in trade and industry.

- Deburring, inside and outside
- Base included
- External vacuum exhaust
- 5 year warranty for drive motor

TECHNICAL SPECS

WORKING AREA

Speed	3000 1/min
-------	------------

DRIVE CAPACITY

Motor rating main drive	2.2 kW
-------------------------	--------

MEASURES AND WEIGHTS

Wire wheel brush size	250 mm x 45 mm x 24 mm
Overall dimensions (length x width x height)	0.33 m x 0.64 m x 1.16 m
Weight	50 kg

PRODUCT DETAILS

- For deburring of tubes, profiles and flat material
- Workpieces can be deburred inside and outside
- Including rigid machine foot
- Ready for connection of an external vacuum exhaust
- Wire wheel brushes with different wire diameters available, including wheels for machining of stainless steel
- 5 year warranty for drive motor

STANDARD EQUIPMENT

Base
Wire wheel brush
Vacuum exhaust connection
Operator instructions

OPTIONAL EQUIPMENT

- Wire wheel brush 250 x 45 mm / 0.3 mm for EM 250, SKU : 252841
- Wire wheel brush 250 x 100 x 45 / 0,5 mm for EM 250, SKU : 252842
- Wire wheel brush 250 x 45 / 0,2 mm for EM 250, SKU : 252843
- Wire wheel brush 250 x 45 mm for stainless steel for EM 250, SKU : 252844

KNUTH on YouTube Information to the point

On our YouTube channel you can find videos for nearly all machines from our program. We show the machines from current deliveries and you get an impression of the handling, the processing quality and the machining performance.
