

Edge Beveling Machines KF 6000 OPTIEDGE

SKU : 101360

KF 6000 OPTIEDGE is a cost-effective portable edge beveler. Proven even under rough use conditions, this device is the optimal choice for chamfering or beveling plates from wide range of materials.

- powerful servomotor for infinitely variable

TECHNICAL SPECS

WORKING AREA

Guide bar length	230 mm
Chamfer width, max.	10 mm
Speed	6000 1/min
Angle adjustment	15 - 45°

DRIVE CAPACITY

Motor rating main drive	0.75 kW
-------------------------	---------

MEASURES AND WEIGHTS

Overall dimensions (length x width x height)	0.3 m x 0.23 m x 0.18 m
Weight	9.28 kg

PRODUCT DETAILS

- Proven under rough, commercial use conditions
- For deburring, chamfering, bevelling, and cost-effective weld seam preparation at straight workpiece edges
- One machine for two applications: Use directly at the workpiece to machine large dies, includes a special mount for easy change-over to stationary operation
- Suitable for steel, stainless steel, aluminum, non-ferrous metals and acrylics

STANDARD EQUIPMENT

Cutter head
Dies
Operator instructions

KNUTH on YouTube Information to the point

On our YouTube channel you can find videos for nearly all machines from our program. We show the machines from current deliveries and you get an impression of the handling, the processing quality and the machining performance.

**Are you interested in a machine for which you cannot find a current video?
