

Tube End Finishing Machines **RAX**

SKU : 130125

The motor-driven RAX Notcher is suitable for notching tubes made of steel, stainless steel and non-ferrous heavy metals. It has a small footprint, is versatile by combining various tube diameters in one unit, and delivers clean cuts that do not require any rework.

- Powerful motor for increased productivity
- Predefined pipe slots for most common sizes
- Simple and quick operation

TECHNICAL SPECS

WORKING AREA

Plate thickness (max.)	3 mm
------------------------	------

DRIVE CAPACITY

Motor rating main drive	1.5 kW
Supply voltage	230 V

MEASURES AND WEIGHTS

Weight	62 kg
--------	-------

PRODUCT DETAILS

- High productivity
- Low cost
- Simple and quick operation
- Several diameters instantly available
- Operation with 230 Volt
- For tube diameters: 1/4", 3/8", 1/2", 3/4", 1", 1 1/4", 1 1/2", 2"

STANDARD EQUIPMENT

Operator manual

KNUTH on YouTube Information to the point

On our YouTube channel you can find videos for nearly all machines from our program. We show the machines from current deliveries and you get an impression of the handling, the processing quality and the machining performance.
